

THE FIRST THIRTY YEARS
1967-1997

A CHRONICLE

FOREWORD

This special publication is an historical record of the College which details its chronological development and documents the pertinent names, dates and facts for each of its first 30 years. The *Chronicle* identifies the origins of the College, together with the Council members, office bearers and award winners since its inception in 1967 as well as recording the respective annual scientific meetings and related information.

The *Chronicle* is the first publication of the College that brings together these important facts and events in the life of the College. We are indebted to Dr Maurice Cleary for his role as editor of the document. Dr Cleary has revised and corrected the *Chronicle* with reference to archive material extant at the College Secretariat including annual reports, annual general meetings and various state committee papers and documents. In addition, Dr Cleary consulted a number of senior Fellows in the formulation of the document in order to verify specific details and matters of fact relating particularly to the early history of the College where reliable archival material was not available.

The *Chronicle* represents an important resource for the College as well as an invaluable index to the College's various identities and achievements in its first 30 years.

Dr M R (Taffy) Jones
PRESIDENT

ACKNOWLEDGEMENTS

This Chronicle of people and events was produced from annual reports and other documents of an historical nature that repose in the College Office at 35 Drummond Street, Melbourne. The missing gaps in these records have been filled from memory – fading and often quite dim!

I express my gratitude to many Fellows who jogged my memory when it failed.

Firstly, John Shepherd wrote the opening chapter “Birth of a College”. Thanks to you John and also to Cyril Cummins, Bill Keane, Cliff Flower, Bill McCoy, Roger Vanderfield, Dick Webb and Trevor Wood who, with many telephone calls, were able to fill in missing links on numerous occasions.

I appreciate also the assistance given by the College Office – Stephen Krul, Registrar and secretarial staff Shannon Bergamin, Helen Brosche, Angela Ferry and Judy Anderton who set up the original word processing disc in 1992.

COLLEGE MOTTO ADOPTED:

CONCORDIA INTEGRI PROGREDIAMUR

- Let us progress in unity by working together in harmony.

The Latin Master at Melbourne Grammar School summarised the theme of the *17 October 1963* resolution that formulated the object for which the College was founded and composed the motto.

COLLEGE GOWN AND EMBLEM

Appropriate Australian Colours of blue for sky and sea and yellow for wattle were chosen as trimming for the gown. The Aesculapian snake superimposed on a book of learning and edged with sheaves of wheat to give an Australian flavour constituted the College emblem.

COLLEGE OFFICE

The College Office moved to AMA Building, 293 Royal Parade, Parkville and the initial Council Meeting was held on that site on 15 March 1969. The initial Fellowship lectures and examinations were also held here using facilities provided by the Australian Medical Association.
